

CONTINUUM OF SERVICES OPTIONS

Fayetteville Public Schools is focused on creating inclusive environments to ensure that students with disabilities receive their education in the general curriculum alongside their peers without disabilities to the greatest extent possible. Maximizing student participation in the general education setting is first priority. Specialized instructional services are provided along a continuum of services. The continuum of service options become more restrictive as instructional delivery time in the general education setting decreases.

Services

- **Indirect/Consultation Services**
100% general education
- **Inclusion/Co-Teaching Services**
100% general education
- **Specialized Instructional Services**
more than 80% general education

40% - 79% general education
- **Specialized Instructional Services**
less than 40% general education
- **Day Treatment**
- **Residential Treatment Services**
- **Hospital/Homebound Services**

SPECIALIZED SERVICES

Specialized services are those services provided directly or indirectly to a child with a disability to ensure benefit from the general education program. Direct services can be provided to an individual child or to a small group of children with similar needs. Direct instruction and services are provided to help a child meet the goals and objectives on the child's Individualized Education Plan (IEP). Indirect Services support the student in the general education classroom through consultation with teachers, monitoring progress, making accommodations or modification, adjusting and maintaining assistive technology or equipment, and limited direct contact with the student.

RELATED SERVICES

Related services are services provided to assist a child with a disability to benefit from special education services. Related services do not stand alone in the absence of special education instruction. Related services may include transportation, audiology services, interpreting services, psychological services, physical and occupational therapy, recreation, mental health counseling, orientation and mobility services, and nursing services.

Speech Language Therapy

Speech Language Therapy services are provided as direct or related services to address the communication needs of eligible students with disabilities. Speech therapy services are provided by licensed speech language pathologists who work to prevent, assess, diagnose, and treat speech language, social communication, and swallowing disorders in school-age children grades K-12.

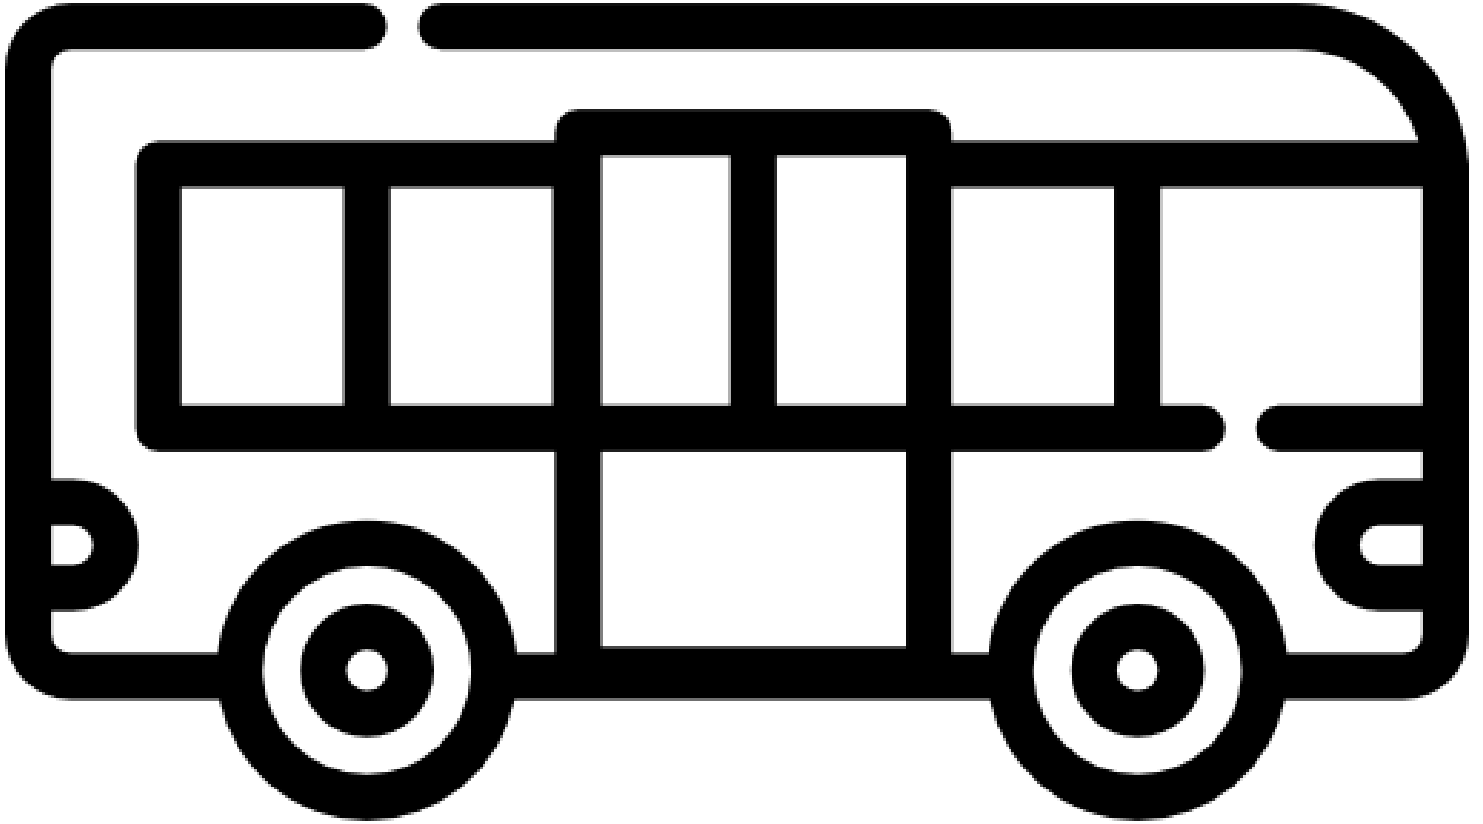

Services

Occupational Therapy & Physical Therapy

Occupational Therapy and Physical Therapy services are provided as related services to address fine motor and gross motor needs of eligible students with disabilities. Related services are services provided to assist a child with a disability to benefit from special education services. Occupational and Physical therapy services are provided by licensed therapists.

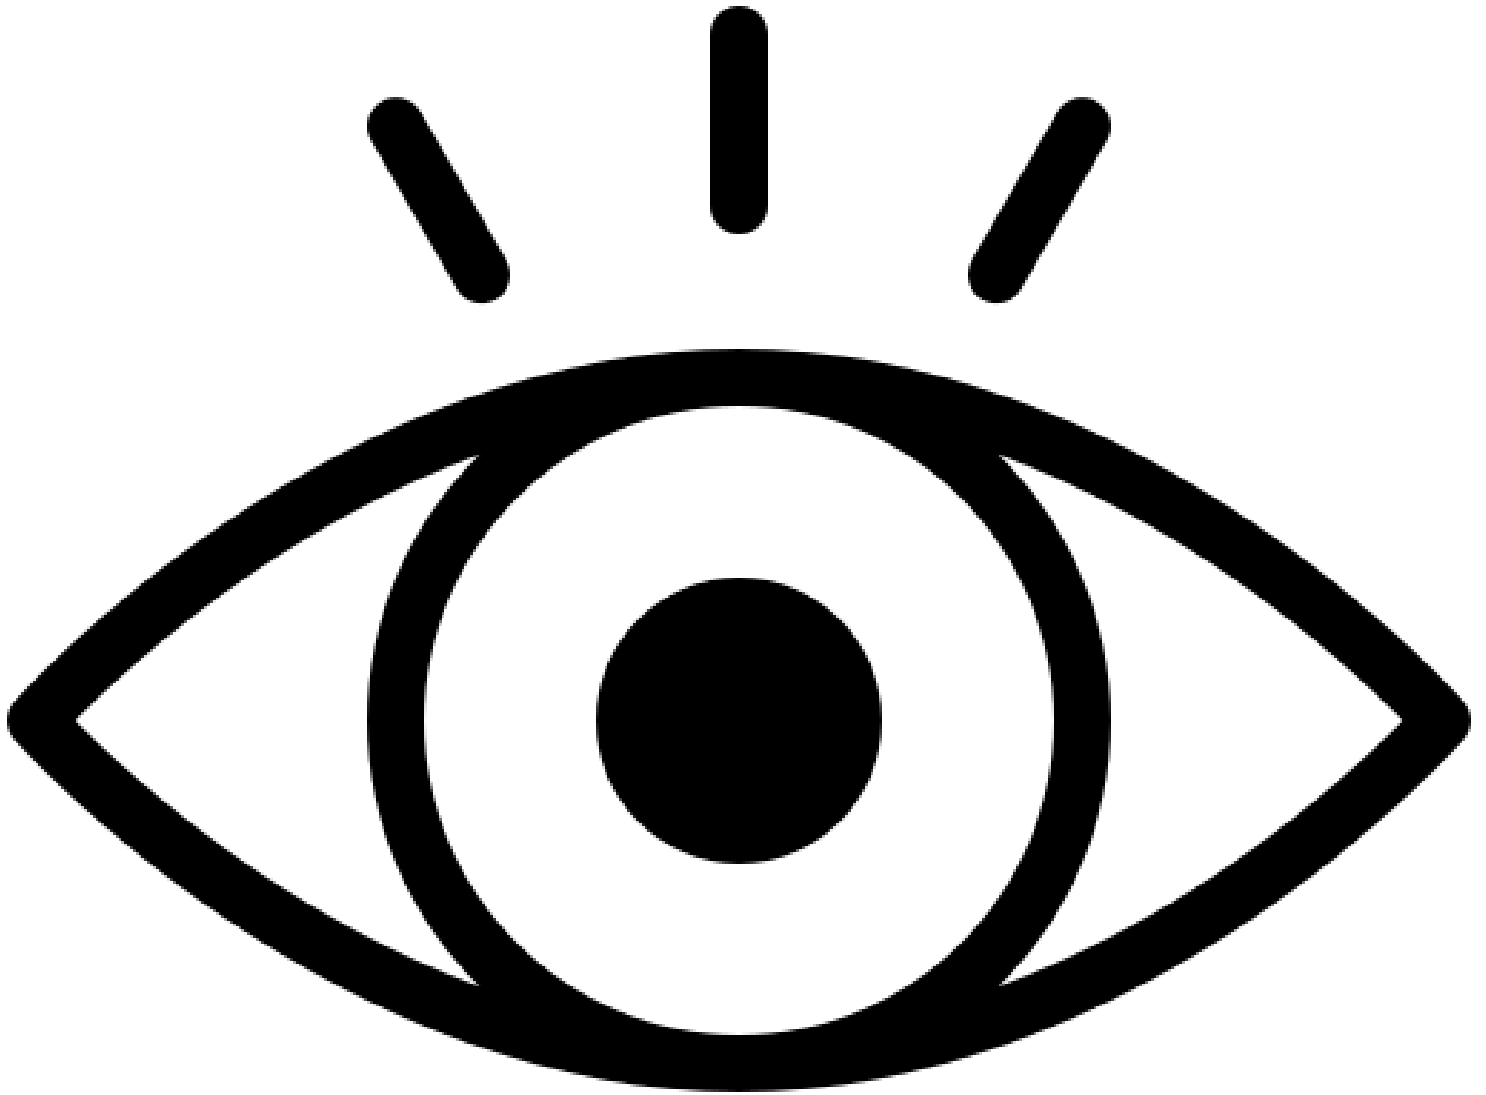

Specialized Transportation

Fayetteville Public Schools provides specialized transportation to students with disabilities as written in their Individual Education Programs (IEPs). Specialized transportation is a related service under the IDEA and refers to travel to and from school and between schools. It may also include the use of specialized equipment and additional supervision.

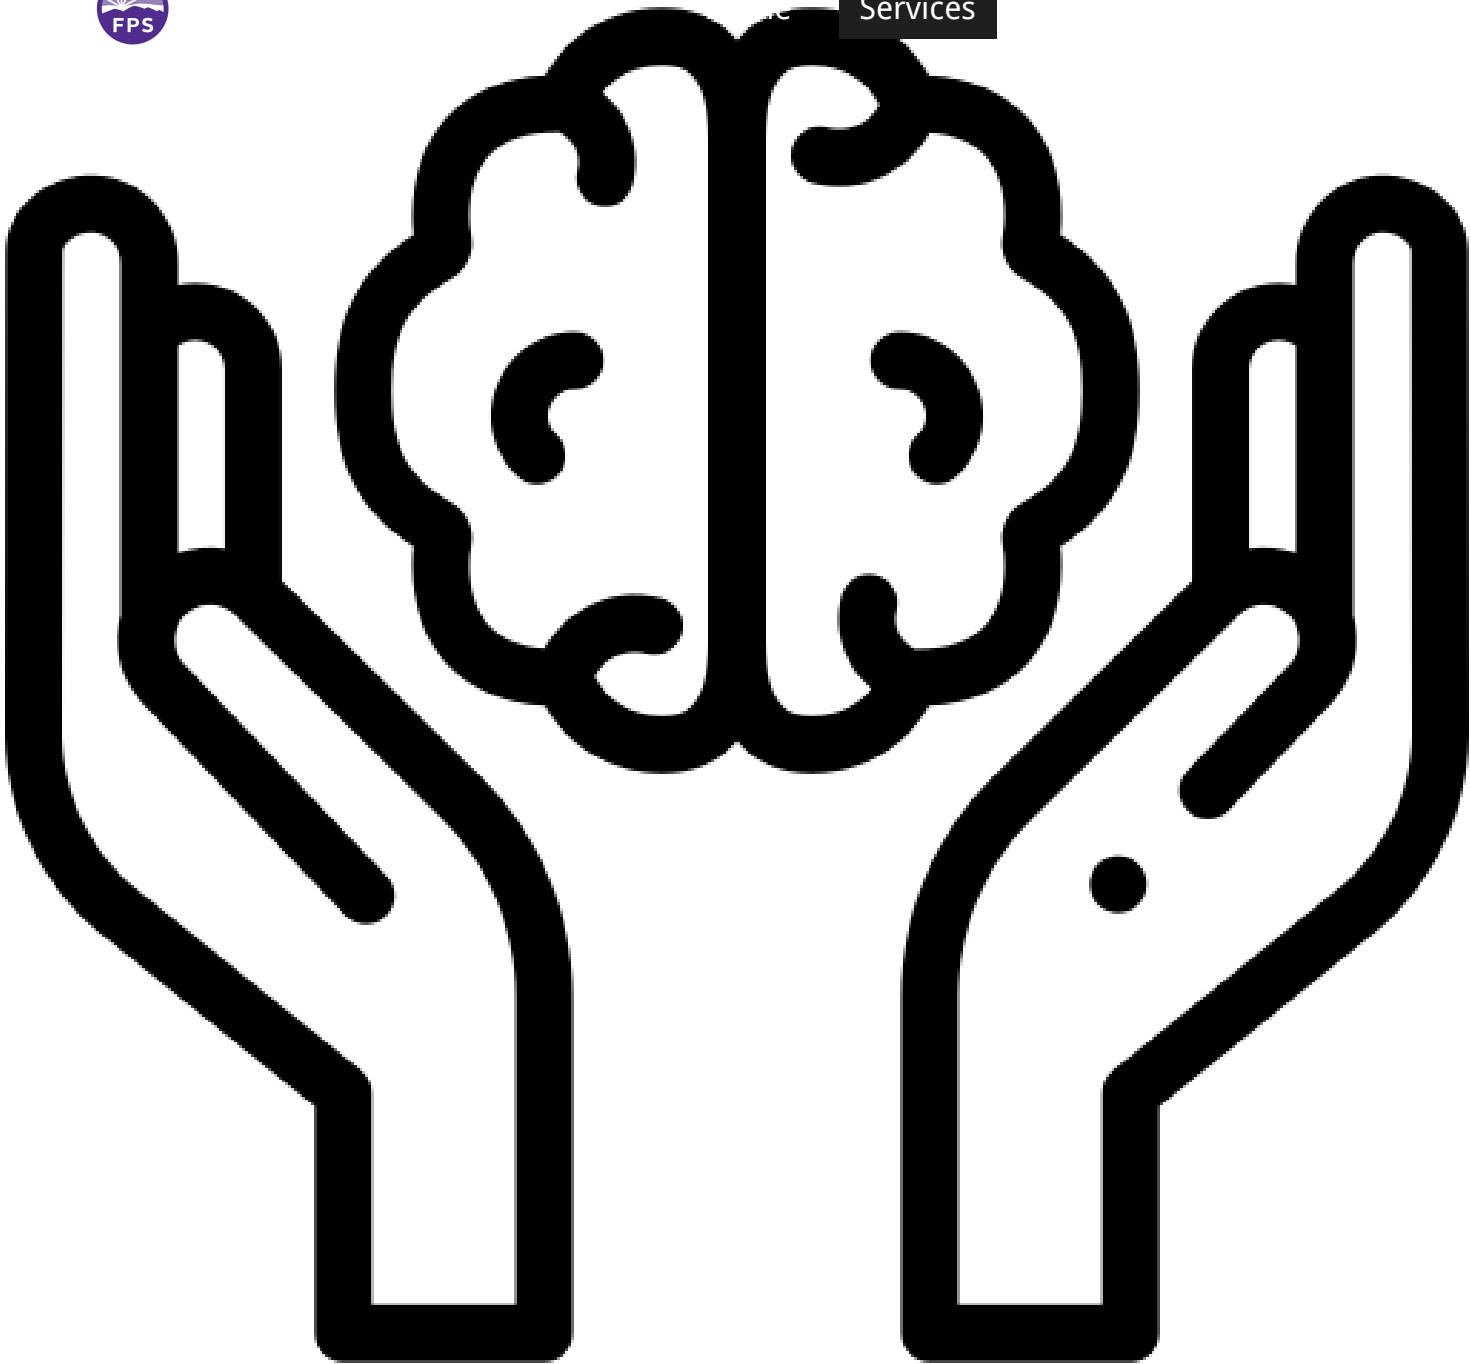

Orientation and Mobility Skills

Orientation and Mobility (O&M) services helps students with visual impairments develop skills and concepts needed to travel safely and independently within the school setting and community. The district staff coordinates services for students that are implemented by qualified O&M specialists.

Services

School-Based Mental Health Services are designed to help students in kindergarten through high school who are faced with emotional and/or behavioral problems. Through individual, group, and family therapy, support services, and behavioral assistance, the School-Based counselors help children and families reduce the barriers to learning and improve the emotional and behavioral development of the child. By placing counselors in the schools, school and counseling staff are able to collaborate and provide maximum benefit to the student.

PRIVATE SCHOOL/HOME SCHOOL SERVICES

Services

Students who are educated in private school or homeschool settings may be eligible for services under the IDEA. Fayetteville Public Schools has an educational team designated to coordinate and implement these services. Contact [Elizabeth Williams](#), Special Education Designee, for questions or additional information.

Services

EARLY CHILDHOOD SERVICES

Section 619 of Part B of IDEA, defines the preschool program which guarantees a free appropriate public education (FAPE) to children with disabilities age three through five. Under this program preschool children who have disabilities are entitled to Special Education and Related Services in the Least Restrictive Environment (LRE). Young children, who have been identified as having a disability under the IDEA are eligible to receive services through the local education agency.

JUVENILE DETENTION CENTER SERVICES

Students with disabilities who are incarcerated in the Washington County Juvenile Detention Center (JDC) receive education services provided by certified teachers. Fayetteville Public Schools has three teachers assigned to the JDC who provided instruction in General Education, Special Education, and Physical Education.
