COMMUNITY ENGAGEMENT INITIATIVE GRANT

Throughout the 2026-27 school year, we'll be working with Wishon Elementary School as part of the Community Engagement Initiative (CEI) Grant award received.

The CEI is a statewide partnership that unites schools, educators, community partners, and families to strengthen relationships, increase trust, and improve student outcomes. This initiative is based at one school site and built on collaboration, listening, and valuing everyone's voice. It includes our core services initiatives: Family Leadership Academy, Family Literacy Club, Family Literacy Toolkits and Educator Family Engagement Professional Learning.
