Care that grows with your child

Expert 1-on-1 support

Get matched with a licensed therapist that specializes in child and teen development.

Customized program

Our therapists and clinicians use techniques proven to work, and can change their plan to fit your child's needs.

Convenient, year-round access

Flexible scheduling with summer availability. No commuting, no doctor referral needed.

Data privacy

By law, we do not sell or share student data, ever. We only use personal data for providing

care—
nothing
more.

Kids feel better

8 out of 10 kids feel better after about 6 therapy sessions.¹

Improved attendance

Students who complete therapy are less likely to miss school.²

Better behavior

84% of parents see their child's behavior improve after therapy.³

Less parent stress

7 out of 10 parents feel less stressed since their child started getting help.³

Getting care is easy at Hazel

1 Sign up, consent, and schedule

Parents create an account, complete a quick consent form, submit insurance if applicable, and choose a time for their child's first appointment.

2 The first visit

You and your child will meet with a licensed therapist to talk about your child's needs and goals.

3 Weekly sessions

During school or from home, your child connects securely with

their therapist each week.

4 Support continues as needed

Hazel coordinates with families and school staff for continued care when appropriate.

Therapy is customized to *your child's* age, needs, and goals

High School Students

- Planning for graduation and the future

- Building resilience for life's challenges
- Exploring identity and relationships

Why therapy?

Your child's therapist will help them feel less alone, teach them to handle big feelings and stress, and build confidence and self-awareness.

Build self-esteem

Develop coping skills
