

Board Advisory Committees

Jeffco Public Schools Board Advisory Committees are established by our Board of Education to bring together community voices and expert insights on key topics like finance, technology, capital planning and accountability. These committees are composed of parents, staff, community leaders and professionals who work together to support the Board's decision-making process and ensure our schools serve our community effectively.

Board Committees

Audit Oversight Committee

The Audit Committee was established by the Board of Education to fulfill the district's responsibilities to carefully and responsibly manage money and assets per policy DIEA.

District Accountability Committee (DAC)

[Skip To Main Content](#)

The District Accountability Committee (DAC) is a district-level accountability and advisory committee. DAC members act in an advisory capacity on topics such as the budget and unified improvement plan, as provided by law.

Committees that meet as needed

- Content Review Committee
- Resource Review Committee
- Preschool Program Committee
- District Health Advisory Committee

A committee is a Board of Education committee only if its existence and charge come from the Board and its work is intended to support the Board's work, whether or not Board members sit on the committee. The only Board committees are those outlined in the **District Policy GP-07 Committee Structure** [↗](#) policy. Unless otherwise stated or required by law, a committee ceases to exist as soon as its task is complete.

To learn more about other committees that support the district, visit the **District Committees page. (/fs/pages/5250)**
