

Family Engagement

Jeffco Public Schools is increasing family engagement in Jeffco Title I schools. The team will prioritize family engagement liaisons to support schools with this important Title I work.

Family engagement liaisons use a research-based framework to increase student achievement based on the **six national standards for family-school partnerships** [↗](#).

Jeffco's focus is to provide family engagement leadership to support and collaborate with families, school and district staff and the community. Together, we will build trusting relationships with students and their families that elevate and value students' culture and assets so they can experience relevant, engaging, transformed learning tasks.

Parent Involvement In Education Policy
