Beach Unified and CSULB credit toward graduation.

The primary course, US Diversity and the Ethnic Experience, is a survey of four major ethnic groups (Native American, African American, Chicano/Latino American and Asian American) from the earliest periods of Native American history, through migrations to the Americas, into the present conditions of U.S. society. Special attention is given to the formation and transformation of each ethnic group and their individual and collective roles in the development of the United States.

Additional classes may be available for students that complete the primary course and wish to gain deeper knowledge in the specified content areas.
